

Bilingual IT Consultant

Email : anthony@zen-dreams.com

My career has enabled me to fill the various posts related to the life cycle of a project: developer, integrator, in charge of testing Systems Administrator, Administrator of applications, **Project Leader** and finally **Service manager**. These experiences have enabled me to acquire the necessary knowledge to the organization and architecture of a system of information and have a **global vision**.

Technical skills

Systems

- » System administration : Unix (**Solaris, Aix**), **Linux**, Windows (NT, 2000, XP)
- » Storage : **EMC²**, Networker, **Network Appliance**, StorageTEK, **Sun Solstice Disk Manager**, Veritas Volume Manager
- » Network server : SSH, SNMP, FTP, NIS, NFS, Samba/CIFS
- » Concepts : **High Availability, Security**

Software

- » Database : **Oracle / MySql**
- » Application server : **Apache**, Tomcat, **iPlanet/Sun Java Enterprise Server**
- » Testing suites : **Webload**, HP LoadRunner, JMeter

Development

- » Development tools : **Visual Studio, Eclipse**, Rational Rose
- » Programming Languages : **C, C++, Php**, Ksh, Bash, Javascript, PL/Sql
- » Presentation languages : XHTML, CSS
- » Methods : **ITIL, UML, SSM, Project Management**

Professional Experience

Development

- » **Freelance developer** (Mai 2002 - Mai 2003)

Developing a management application for a semi-industrial pastry. This has led to optimize the efficiency of production lines by 20%.

Modelling, development, validation and move into production.

- Visual C++
- Access database
- online connection via modem

Operations

» Application administrator, Airbus on behalf of Steria (02/2008 - Present)

» System Expert, Airbus on behalf of Sogeti (november 2005 – june 2006)

Installation and **integration** of products and specific software.
Drafting of standards and standard development for Airbus
Support for operational and development teams.

Technologies: **Oracle, iPlanet, Apache, Tomcat, JDKs, Php, Solaris, AiX**

» System Administrator, Sigma Informatiques (02/2005 - 11/2005)

System administration for hypermarkets Leclerc. 400 distributed servers throughout France.

Technologies : Unix (Aix, **Solaris**, Sco Unix), **Linux** (Redhat Enterprise Server) and Windows (NT4, 2003), Progress, **Oracle, Apache, Tomcat**.

Management

» Service manager, Airbus on behalf of Sogeti (12/2006 - 01/2008)

28 application portal management destined to Airbus customers, **Highly available(effective SLA: 99.8%)**.

- Applicative and Functionnal monitoring
- **Level 3 Support** and **Communication** towards **customers**
- Planning and operational procedure definitions

Operational projects management

- Migrations
- Availability and **monitoring** enhancement, definition of **KPIs**
- Security

Technologies: **iPlanet, Sun Solaris, JDK, Calendra, Oracle Dataguard, Load Balancing**, Reverse proxying

» Load testing supervisor, Airbus on behalf of Sogeti (06/2006 - 12/2006)

Preparation, implementation, **analysis** and presentation of results.

Director of Training.

Tested technologies: **SAP, Apache/Tomcat, iPlanet, Oracle, Solaris, Windows**
Tools: HP LoadRunner, **WebLoad**

» **Service Manager and System Administrator**, Aircelle on behalf of Sogeti (05/2003 - 02/2005)
